

Kanishka Namdeo

Product Manager · 9+ years · Dubai / remote

kanishkanamdeo@hotmail.com · kanishkanamdeo.com · linkedin.com/in/kanishkanamdeo

Product manager with 9+ years across SaaS, mobility & AI — from autonomous marine systems and multimodal logistics to legal-tech NLP and AI products. Led MoveInSync's enterprise transport platform to 8× ARR · 70K+ monthly users · 50+ locations. I manage the product and own the code; open to senior product roles in Dubai or remote.

CAREER LOG

Sagar Defence Engineering

2016 — 2020

Co-founding member & CTO

I co-founded the engineering effort: autonomous navigation with multi-sensor fusion, obstacle avoidance, simulation environments to rehearse missions before launch, and field trials with defence and industrial partners.

4 yrs at sea · 6 sensor streams fused

Intugine Technologies

2020

Technical Consultant

I led the multimodal visibility platform: tracking across all three modes, real-time dashboards and alerting, and the requirements work that got enterprise clients to adopt it.

3 transport modes unified · 24/7 real-time visibility

Medulla.AI · TekIP

2020 — 2022

Senior Technical Consultant · Software Team Lead

I led a 6-developer team across 5 enterprise projects, shipped 30+ features, launched a patent-landscape analysis tool built on BERT embeddings and vector similarity search, and built an automated loan pipeline on Amazon Textract with confidence scoring, Celery async processing and Airflow orchestration.

10× analysis productivity · 5× faster document review · 30+ features shipped

MoveInSync

2022 — 2024

Senior Product Manager

I owned product vision and roadmap: 50+ new locations across 3 countries, a rebuilt mobile experience, native payments and invoicing, ERP integrations that cut implementation time 20%, and an 8-person sprint team.

8× ARR · 70K+ monthly users · 50+ locations · 3 countries

Product Consultant • Senior PM • Product & AI Consultant

Three engagements, back to back. Flipr hired me to scope and ship a video-retrieval MVP for Flipkart — automated dispute resolution wired into their Order Management System, built for ~50K daily orders.

50K daily orders through the Flipr MVP • 20+ Cognium user interviews • 22 AvloAI languages • 30s voice cloning

BASE CAMPS

AgentCanvas

2026

Your agentic designer — build agent workflows visually.

github.com/kanishka-namdeo/AgentCanvas

pi-dash

2026

Many agents, one surface.

github.com/kanishka-namdeo/pi-dash

thetell

2025

Corporate intelligence: two agents in debate over 25+ signal sources.
